QR-BASED FRAUD PROTECTION

verify the genuineness of the product within seconds.

Dyed COLLECTION
— Vibrant And Vivid Veneers —

DYED VENEERS

Step into a world of vibrance with our Dyed Veneers, a collection designed to bring life and energy to your spaces. Each veneer reflects the brilliance of diamonds, capturing the beauty of light and colour in every shade.

With a legacy dating back to 1994, our Dyed Veneers have redefined the art of colour in wood surfaces. Crafted using a patented Italian dyeing process, these veneers offer bold, vivid tones that allow designers and architects to unleash their creativity. From unique furniture to showstopping décor, this range opens the door to innovation like never before.

Infuse your space with the joy of colour and radiant charm. With Dyed Veneers, the possibilities are as bold as your imagination.

Dyed COLLECTION — Vibrant And Vivid Veneers —

DURO NATURE'S IGNATURE® PREMIUM VENEERS & PLYWOODS

RECOMMENDED POLISHING GUIDELINES

Got your veneers delivered? First things first, apply a base coat on them as soon as possible. Next, you should polish them within a month to prevent cracking from drying out or getting contaminated. Finally, you can seal them up to keep them looking fresh and protected from any on-site mishaps. After that, your veneers will look amazing for ages.

THINGS TO KEEP IN MIND

Atmospheric Conditions

Post-application, you should polish the veneer promptly to avoid yellowing due to on-site atmospheric conditions.

Base Coat

We recommend you apply the base coat on light coloured and especially, Dyed veneers.

Polishes for Dyed veneers

We recommend that you use branded non-yellowing acrylic, water-based, or polyester polishes to avoid potential colour changes. In fact, acrylic polishes contain a unique agent that prevent colour shifts.

THE PROCESS OF APPLICATION

As for brands, we suggest you go for Sirca and ICA or equivalent.

Sirca

Acrylic matt (opu400 hq/opu 400 hq g 20) • One coat epoxy for dyed veneers (fpi31ni) • 2-3 coats acrylic sealer (fpu32hq) • 1-2 coats of acrylic matt	Acrylic ultra-gloss (lpu001) • One coat of epoxy for dyed veneer • 3-4 coats of acrylic sealer • 2 coats of acrylic ultra-gloss

ICA

ICA Finezza Acrylic PU. • Use 2 coats of acrylic sealer and 2 top coats of acrylic gloss. • Also available in dead matt sheen.	ICA Finezza Acrylic PU. • Use 2 coats of acrylic sealer and 2 top coats of acrylic matt. • Also available in dead matt sheen.
