RBI forward contract, weak \$ may have aided Fx reserves

SHASHANK DIDMISHE
Mumbai, November 7

THE DELIVERY OF US dollars from the Reserve Bank of India's (RBI) forward contracts and appreciation of other foreign currency assets against the greenback may have led to the significant jump of \$6.6 billion in India's foreign exchange reserves, according to experts. Forex reserves saw the sharpest weekly rise since September 2021 to \$531.1 billion for the week ended October 28, according to the Reserve Bank of India (RBI) data.

These factors, coupled with higher export receipts, may have resulted in higher forex chest during the festival week, Madan Sabnavis, chief economist at Bank of Baroda, said. The magnitude of the foreign fund inflow during the week was not so high as to impact the reserves, he said. FPI inflows in the week under review stood at \$550 million, according to data with the depositories.

The appreciation of other currencies in the RBI reserves against the US dollars might have aided the increase, Ashutosh Khajuria, executive director of Federal Bank, said. Other than the

SHARP WEEKLY RISE

Foreign exchange reserves saw the sharpest weekly rise since September 2021 to \$531.1 billion for the week ended October 28, according to the RBI data

Appreciation of other currencies in RBI reserves against the dollar might have aided the increase, Ashutosh Khajuria, executive director of Federal Bank, said

US dollar, the central bank holds pound sterling, yen and euro in its forex reserves. These currencies are expressed in US dollar terms, and any appreciation in these currencies will result in higher reserves.

The appreciation of the rupee against the US dollar might have led to an impression among the market participants that the RBI is buying the green-

back, which actually might not be the case, Khajuria said.

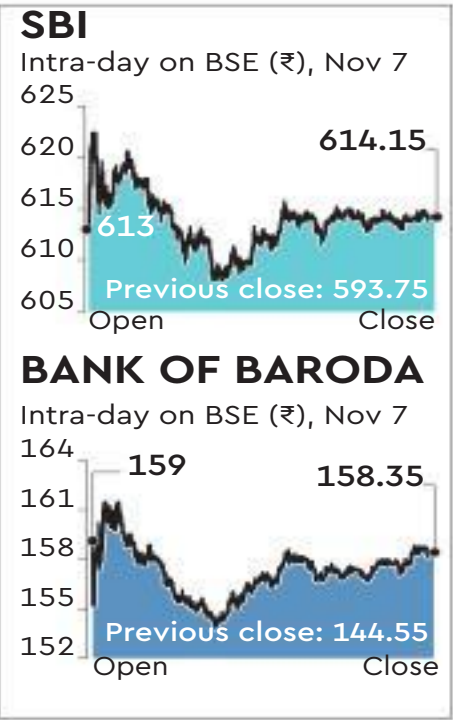

"Movements in the FCA occur mainly on account of purchase and sale of foreign exchange by the RBI, income arising out of the deployment of the foreign exchange reserves, external aid receipts of the central government and changes on account of revaluation of the assets," the RBI said

Strong Q2 drives SBI, BoB stocks to new highs

FE BUREAU
Mumbai, November 7

SHARES OF STATE Bank of India and Bank of Baroda rallied to their all-time highs on Monday on the back of strong Q2 numbers. SBI stock rose 4.9% intra-day to hit an all-time high of ₹622.90 while BoB jumped 11.98% to ₹161.75, the highest since February 2018.

Analysts went on a ratering binge on Monday for both

banks. BoB's NIM expanded by around 30 bps sequentially, which was above expectations, Suresh Ganapathy, analyst at Macquire Research, said in a report, adding that the lender also saw reductions in its credit cost to about 85 bps lower than expected. The brokerage has revised the target price of BoB to ₹155 per share, driven by higher sustainable return on equity. For SBI, it has reiterated 'outperform' rating with a target price of ₹695 per share.

"Keeping a positive thesis is perhaps the best investment thesis on SBI, despite the sharp

outperformance in recent years. The structure of the loan book suggests that the slowdown, if any, appears to be growth slowdown rather than a credit cost problem currently," Kotak Institutional Equities said in a report.

"BoB has a strong liability franchise and adequate headroom to fund this growth. Furthermore, the has been making investments in its franchise, similar to SBI, though it is behind them currently, which augurs well for its growth in the relatively low-risk retail segment," the brokerage said.
